SUMMARY

Motivated Computer Science student seeking opportunities to apply programming and problem-solving skills in software development and artificial intelligence.

EDUCATION

Bachelor of Technology (B.Tech) - Computer Science Engineering

EXPERIENCE

Software Development Intern

PROJECTS

AI Career Guidance System

- Developed a web-based career guidance platform using Python and Flask.
- Implemented login, registration, and career prediction features.

Student Management System

- Created a database-driven application to manage student records.

TECHNICAL SKILLS

Python

Java

HTML

CSS

JavaScript

SQL

CERTIFICATIONS

Python Programming Certification

Web Development Certification

STRENGTHS

- Problem Solving - Team Work - Communication Skills

HOBBIES

- Coding - Reading Technology Blogs - Learning New Skills
